

I am on the Indiana Attorney General's "Do Not Call List". I am requesting that you do not change our State's "Do Not Call List". My home has been quiet (especially during supper) from unwanted phone calls. I have been on the List for approximately one year and I have not received more than two or three calls from salespeople in that time. Before the List I received unwanted calls the same day I came home from the hospital after having surgery. My husband and I have a nice, uninterrupted supper and my day is also peaceful.

Thank you,

Dixie Boles....DBbelieves@aol.com

PS

Next I would like to see something done about computer spam!
